# SPURIOUS COIN MAKERS

Gang of Heavy Operators Discovered By the Police.

## COUNTERFEIT \$5 PIECES.

HUNDREDS OF DOLLARS OF THEM ARE DISCOVERED.

**Two Men and a Woman Under Arrest—Base Money Found on All of Them—J. A. McBurney Admits to Making Them in the Detroit Mining District, But Denies Having Passed Any of Them—Other Police Matters.**

The police believe they have discovered a gang of counterfeiters. There is every indication that they have, for the desk sergeant has in his possession an old tobacco sack containing about \$250 in counterfeit \$5 gold pieces. The imitation is good and proves that the gang is a dangerous one to deal with. Yesterday afternoon Pete McCarthy rushed into the police station and in an excited manner told Chief Pratt that a man had made a proposition to him in such a mysterious manner that he apprehended something was wrong. Chief Pratt says his proposition to let any suspicious character linger in the city and detailed Detectives Sheets and Jamney on the case. The man who gave the chief the tip accompanied the officers to the station where they discovered his man in the "16 to 1" saloon on Second South. The officers at once took charge of him and upon being searched at the station twelve \$5 counterfeit gold pieces were found on his person. A pal was also taken to the station and several counterfeit gold pieces were found in his pockets. The former gave his name as John McBurney and the latter as John McBurney. The detectives took McBurney into the chief's private office and subjected him to a rigorous examination, with the result that he admitted his right name was J. A. McBurney and that his home was in the Detroit mining district where he is interested in a mine and runs a small supply store. It developed also that his wife was in the city and the officers were on her trail at once. McBurney had about \$60 in counterfeit money, some of it being dimes and quarters. When asked about the money he said it had been manufactured at his home. He made in all \$500 of the spurious \$5 gold pieces, but said he took only half of that amount with him to this city. He had made no attempt, so far as the officers know, to pass any of the coin.

**PLEADS IGNORANCE.**  
Brogram says he knows absolutely nothing about any counterfeiting scheme, but says his acquaintance with McBurney has been only of two or three days' duration.

The next step of the officers was to discover the woman. This they did, locating her in the Columbia House, room 20. She was very much surprised at seeing the officers and made all sorts of excuses to get away. But neither Sheets nor Jamney is a tenderfoot, and they would not allow her to get out of sight, but deported her directly to the station where she was searched and some more spurious coin found. Then her room was searched, and laid away in the wood box was found an old tobacco sack containing 37 pieces of imitations of \$5 gold pieces.

**THE WOMAN'S STORY.**  
Mrs. McBurney says she was formerly a resident of Block Pine, Mont. She is about 35 years old, rather stout and not at all bad looking. Like the others she denied having passed any counterfeit coin and corroborated her husband's saying that the money had been manufactured at their mine in the Detroit district. The police are inclined to disbelieve this, however, and will make further arrests in the hope of finding the tools used in making the imitations.

All the parties are now in jail and the case will be looked into by United States District Attorney Judd.

**Minor Police Matters.**  
Officers William Shannon, Johnson and O. P. Pratt made a round-up of vagrants yesterday. They stumbled onto a gang of about twenty behind the dago saloon on West Temple street. As soon as the hobos saw the officers they showed fight. But the minions of the law were too strong for them and fifteen. Clubs played an important part and there were some heads when the station was reached, it being necessary in one case to call a physician. All the money found on this crowd was fifteen cents.

Fred Stewart was arrested by Sergeant Ellinger yesterday afternoon. He is wanted at Ogden on a charge of forgery.

Do you wish to increase your income without personal attention or inconvenience? Then use common sense. How do you suppose bankers can get so wealthy? How do you suppose insurance companies make money? How do you suppose speculators accumulate gigantic fortunes? How many men live as well on a capital of \$3,000 as others can on \$50,000?

It is simply this: They hire, procure or obtain your money in small amounts at from 2 1/2 to 6 per cent per annum and use it combined to make from 30 to 200 per cent per annum by their safe system of speculation. E. S. Dean & Co. have been paying from 300 to 400 per cent per annum for investments every 15 days—the first and 15th of each month by draft on N. Y. direct to the investor.

The plan by which E. S. Dean & Co. operate is the one by which all successful speculators have made huge fortunes and if followed will result profitably to you.

There are today in this country thousands of men who are now enjoying

annual incomes ranging from one to ten thousand according to the amount they have invested with E. S. Dean & Co.

Hoping that you will not be blind to your own interests any longer and favor me with an early call, I am, Very Truly Yours,

## FIRST BANK OF MERCUR.

CLAIMED IT IS SEPARATE FROM BANK OF SALT LAKE.

**Suit in Intervention by the Depositors—Want a Separate Receiver and James H. Bacon and E. J. Carter Declared Co-Partners.**

A new move has been made in the affairs of the Bank of Salt Lake in regard to its relations with its branch house, the First Bank of Mercur, by which it is sought to have the Mercur branch declared a separate and distinct institution and to have its affairs wound up separately.

E. Abbott and fifty-eight other depositors in the First Bank of Mercur and representing about \$30,000 all told have, by their attorney W. R. Hutchinson and C. W. Morse of this city, commenced suit in intervention alleging that James H. Bacon and E. J. Carter entered into a co-partnership under the firm name of the First Bank of Mercur and as such defrauded the depositors of said bank on or about June 23, 1896, when James H. Bacon, claiming to do business for himself alone as the First Bank of Mercur, assigned to F. W. Ross, it is then alleged that James H. Bacon, H. M. Bacon, F. L. Holland and W. R. Hutchinson as co-partners did business as the Bank of Salt Lake and as such with intent to defraud the depositors of said bank withdrew and abstracted from the latter institution large sums of money and the co-partners were in reality separate and distinct.

These intervenors who it is stated consist of a general banking business unit, creditors of the First Bank of Mercur, made their deposits in the bank solely upon the credit and standing of James H. Bacon and E. J. Carter as partners, and they allege that their interests can only be subserved by the winding up and setting aside of the deed of assignment to Ross in so far as it relates to the First Bank of Mercur and the appointment of a receiver to wind up the affairs of the First Bank of Mercur separate and apart from the Bank of Salt Lake.

# RACING AT CALDER'S.

Very Good Sport at the Park Yesterday Afternoon.

## DR. SHORES' HORSES IN IT.

THEY CARRIED OFF ALL THE VALUABLE PRIZES.

The favorites were strongly backed but the field had the best of it all through—the attendance was large and the races were interesting and exciting.

Dr. C. W. Shores carried off the prizes at Calder's park of the most interesting and exciting racing ever witnessed on that course. From 500 to 1,000 people graced the bleachers and grand stand while hundreds of others lined up along the picket fence and shouted for their favorites.

The betting was brisk from the time the horses made their appearance before the judge's stand until the last heat had been run. There were plenty of backers for the favorites, too many in fact as the field had the advantage during the entire day.

**PACING 2:35.**  
Four events were down on the card. The first to start was the 2:35 pacing event for which the entries were Dr. Malcolm, by C. W. Shores, Rex, by an unknown, Bobby B. by B. Brisco, and Tom McCoy's, by Dr. Malcolm. Rex took the first heat, distancing Bobby B. while Old Dominion came in second. The second heat was taken by Old Dominion quite handsly. Dr. Shores' horse came in second while for some unaccountable reason Rex was distanced leaving the field clear for Old Dominion and Dr. Malcolm. With these two the betting opened in intervention for the favorite, Dr. Malcolm showing up in fine shape and taking three straight heats, winning the race.

**FREE FOR ALL.**  
In the free-for-all event there were five entries, Blue Note, by J. W. Thompson, Dennis by C. W. Shores, Will Bueby's to Jo and Ernie D. A. by Harry Duke. Blue Note was the favorite against the field and after taking the first heat very easily it looked as though there was not sufficient horse power to make a race. Blue Note came up, but in this his backers were mistaken. The second heat was also won by him with half a length to spare to Dennis while Jo, who made several good shows, appeared to be pulling slightly ahead, but lost the advantage on the short turn and fell back until the leaders were again going abreast. On the last turn Blue Note forged ahead by a length, but when the down stretch was reached, Dennis made a magnificent effort and took the heat by a neck. Then it was rumored that the favorite would not take any more heats, and this seemed to be the case, for the doctor's horse took the next two heats also, and was apparently very little worried about it.

**RUNNING DASH.**  
For the three-eighths mile, running dash, the entries were Flying Dutchman, Spider, June Bug and Aco. In the good work of the Dutchman on the previous day made him a favorite with the sporting element and there were taking lively in the start Dennis made a poor showing Friday and was not much considered. He surprised everybody, even his owner, by taking the lead in the start, but June Bug, second, Aeolian, third, and the Dutchman last, Time, 0:33.

**HALF MILE DASH.**  
Vivian Vinton, Gold Leaf and Colleen were the entries for the half mile dash, and Gold Leaf, as was expected, captured the purse. Time, 0:52.

**2:35 PACE.**  
First heat ..... 2:35 1/2  
Second heat ..... 2:35 1/2  
Third heat ..... 2:35 1/2  
Fourth heat ..... 2:35 1/2  
Fifth heat ..... 2:35 1/2

**FREE-FOR-ALL.**  
First heat ..... 2:35 1/2  
Second heat ..... 2:35 1/2  
Third heat ..... 2:35 1/2  
Fourth heat ..... 2:35 1/2  
Fifth heat ..... 2:35 1/2

## ATCHISON AFFAIRS.

**The Report of the Receivers For Two Years.**  
NEW YORK, July 4.—The report submitted by the Atchison receivers of the operations of the system during the two years of the receivership, ending December 31, 1895, shows gross earnings of \$38,737,491; operating expenses, \$46,142,783; net earnings, \$9,205,455, after taxes, etc. There was expended for the construction and reconstruction of \$2,864,442, and there is a balance of current liabilities over current assets, after deducting assets not available as capital of \$1,572,052.

The new company has no floating debt and has ample funds for all liabilities. The statement of the par value of securities and cash payable for the new company in the hands of the reorganization committee on December 31, 1895, was \$15,085,000, including \$5,565,000 St. Louis and San Francisco consols, which were subsequently sold for \$1,971,550, bringing the actual cash holding up to \$4,613,550, after allowing for receivership expenses and bond payments. Of this amount \$1,000,000 has been since expended in meeting secured interest on the debt and in addition interest payments have been made amounting to \$2,224,078, from the earnings of the property. The annual fixed charges have been brought down to \$4,650,590, a slight reduction, and the company now holds \$1,450,000 consols at 100 per cent, bonds of the Mexican government, a result of the adjustment of the Sonora subsidy.

**Railway Notes.**  
Salt Lake came in for another great big day yesterday, and notwithstanding the attractions in town last night, many remained at the pavilion to witness the display of fireworks.

An example of the confidence that some men have in new railroads was given a few days ago at Sigurd, between Salina and Richfield, when an old man flagged the train with a bandana handkerchief and gave the conductor a bunch of fishes and a bunch of lettuce which he desired him to sell so that he could come in to the carnival.

## THE MARKETS.

**NEW YORK, July 4.**—The week just closed has been marked by a highly nervous temper in financial circles which at times caused the market to verge

upon demoralization. In fact in the judgment of competent observers, repetition of the panicky conditions and disastrous slump in values that occurred in December of last year was only averted by a happy and unexpected turn. The sustaining influence came from London, where heavy pool orders for American securities were distributed. The buying was estimated at about 150,000 shares, out of which amount about 30,000 to 40,000 shares is understood to have been shipped to London today. The stocks selected were all active ones.

The heavy London purchases were reflected in a swarming tendency to the sterling exchange market with demand offered at \$183.00 per 100 shillings. The market steadied under the buying and recoveries were made in a number of cases, due chiefly to covering. Toward the close, however, recessions occurred on realizing sales. The closing was heavy in tone but with prices generally a point or thereabouts above the extreme low points. The sales were 1,355,457 shares. The railway bond market was rather quiet considering the increased animation in the stock market. Prices displayed a strong tendency toward the speculative issues foremost. Firmness was apparent at intervals, but the net results were generally lower. The market was of most consequence in the less active mortgages. The transactions were \$3,246,000.

Government bonds were under pressure throughout on a fair volume of business. A new foreign loan was expected, and nervousness, reacting to 118. The sales were \$26,000.

Real estate certificates were less active and lower under realizing sales. The foreign inquiry abated considerably until the close, when a few more reduced continental purchases at 65 1/2 @ 69. The sales were \$10,000.

## A \$2,500 BLAZE.

**Henry Whitstone's Residence at Ogden Destroyed.**  
(Special To The Herald.)  
OGDEN, July 4.—At 12:15 tonight the residence of Henry Whitstone, corner Twenty-ninth street and Munroe avenue, caught fire while the family was absent and was completely destroyed. The loss is about \$2,500, partly insured. The origin of the fire is not known.

## CHARIOT RACE A FAILURE.

**Dr. Higgins, For Some Cause, Failed to Appear.**  
The chariot race, of which so much has been said during the past few days, was a fizzle. Thousands of people drove out to the south main street track to witness the event as early as 2 o'clock in the afternoon, the time set for the event to come off. All were then greeted with the announcement that the race would not come off, as Dr. Higgins, the driving club's race, while others lingered about the boulevard until the time set for pulling off the event arrived.

The multitude was doomed to disappointment, however, for Dr. W. Higgins and his chariot never put in an appearance. Dr. Stoddard was on hand, but could not race alone. Rather than disappoint the crowd a young man was prevailed upon to ride horseback against the chariot. The heat was a very pretty one, and a straight mile course, and both contestants going it for blood. The team was successful, winning the event, and the chariot was run shortly afterwards, the chariot again coming out winner in a close and very pretty race.

Considerable comments were passed by the crowd on the failure of Dr. Higgins to show up. It was rumored that he was ill, but the majority seemed to think that he stayed away on purpose.

## THEATRICALS AT GARFIELD.

**Realistic Production of the Mikado at the Favorite Resort.**  
Messrs. Blakemore and Norris have completed arrangements with the management of Garfield Beach for the erection of a Japanese village and the production of the favorite comic opera, "Mikado." The village will be on the order of the Casino road garden of New York, where the Japanese seats used around tables and witnesses the opera and partakes of refreshments, should it so desire. The Japanese do not wear the usual costume, but are dressed in the latest of the month and as an extra inducement to the public no extra charge whatever will be made other than railroad fare. Such enterprise is worthy of encouragement.
